Laser Hair Removal

How Laser Hair Removal Works

Laser hair removal uses light to target the pigmented area's hairs. The light travels down to the root of the hair and into the hair follicle.

The laser light destroys the hair follicle, and hair can remove permanently. The treatment varies from person to person as per their hair growth, hair type, and colour, body area. It can range from 8 appointments to 12 appointments to achieve that silky smooth sensation depending on your hair colour.

Preparation

- **Staying out of the sun.** Follow your doctor's advice for avoiding sun exposure before and after treatment. Whenever you go out, apply a broad-spectrum, SPF30 sunscreen.
- **Lightening your skin.** Avoid any sunless skin creams that darken your skin. Your doctor might also prescribe a skin bleaching cream if you have a recent tan or darker skin.
- **Avoiding other hair removal methods.** Plucking, waxing and electrolysis can disturb the hair follicle and should be avoided at least four weeks before treatment.
- **Shaving treatment area.** Trimming and shaving is recommended the day before laser treatment. It removes hair above the skin that can result in surface skin damage from burnt hairs, but it leaves the hair shaft intact below the surface.

OXYGENEO™ HARNESSSES THE BOHR EFFECT TO OXYGENATE THE SKIN FROM WITHIN THE BODY!

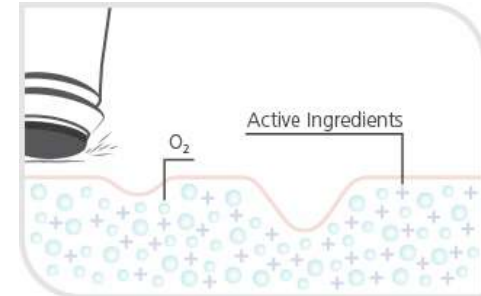

EXFOLIATE

The OxyGeneo™ exfoliates the upper skin layer to remove dead cells, open clogged pores, smooth the surface and renew the skin. The treatment generates an abundance of CO2 bubbles that permeate the upper skin layer to trigger a physiological response known as the Bohr Effect.

OXYGENATE

OxyGeneo™ harnesses the natural processes of the body to oxygenate the skin from within with the Bohr Effect! During the Bohr Effect, the body sends O2-rich blood to the skin to replace the CO2. This results in optimal skin oxygenation and increased cellular activity.

NOURISH

At the same time, OxyGeneo™ nourishes the skin with nutrients, vitamins and other active ingredients which keep it healthy and glowing for the long term

BALANCE

Balances & mattifies oily skin

Purifies clogged pores

Helps to prevent breakouts

DETOX

Removes toxins and impurities from the skin

Alleviates irritation and redness

Helps to prevent oxidative stress and premature skin aging

HYDRATE

Deeply rehydrates and moisturizes the skin

Repairs the skin's barrier defence systems

Helps to prevent redness and inflammations

ILLUMINATE

Brightens & unifies skin tone

Softens pigmented lesions

Helps to prevent UV-induced damage

REVIVE

Reduces wrinkles and fine lines

Increases firmness & elasticity

Helps to prevent loss of structural integrity

GLAM

Restores firmness & elasticity

Revitalizes dull skin

Enriches the skin with moisture

DELUXE HYDRAFACIAL

DELUXE HYDRAFACIAL™ FIRM (60 MINUTES) \$295

All the benefits of the ZO Advanced HydraFacial™, except adding in the HydraFacial™ Firm Booster. This strengthening peptide firming booster, enriched with M-007 Technology, is specifically crafted to target fine lines and wrinkles, resulting in smoother and firmer skin. Formulated with a potent blend of peptides, growth factors, and anti-aging ingredients, the HydraFacial™ Firm Booster not only enhances skin elasticity but also contributes to an overall improvement in skin texture.

DELUXE RETINOL HYDRAFACIAL™ (60 MINUTES) \$295

All the benefits of the ZO Advanced HydraFacial™, except adding in the Retinol Booster. This booster accelerates the skin's surface renewal, instantly minimizing the appearance of wrinkles, promoting even tone, and enhancing youthful radiance. Micronized collagen peptides work to plump the skin's surface, while glycolic acid exfoliates and smoothes, unveiling a revitalized and radiant complexion.

DELUXE BRIGHTENING MURAD VITAMIN C HYDRAFACIAL™ (60 MINUTES) \$295

All the benefits of the ZO Advanced HydraFacial™ except adding in a MURAD VITA-C booster for Hydrafacial. The VITA-C booster instantly brightens and evens skin tone. Intensive glycolic acid and vitamin C serum booster accelerates surface renewal to help minimize the look of dark spots and hyperpigmentation + boost in hydration thanks to Murad's proprietary Replini Cell Technology.

JLO GLOW DELUXE HYDRAFACIAL™ (60 MINUTES) \$300

All the benefits of the ZO Advanced HydraFacial™, except adding in the JLO Glow Booster. Ideal for preparing for significant events, the JLO Booster boasts a meticulously curated blend of ingredients. This includes Olive Leaf Extract for anti-aging hydration and a proprietary Hydracomplex designed to enhance suppleness. The JLO Booster goes above and beyond, improving skin elasticity and contributing to an overall enhancement in skin texture.

DELUXE MURAD CLARIFYING HYDRAFACIAL™ (60 MINUTES) \$295

All the benefits of the ZO Advanced HydraFacial™, except adding in the Murad Clarifying Booster. With a blend of intensive glycolic acid and salicylic acid serum, this booster helps instantly relieve congestion, improve the appearance of pores and refine texture for a clearer, smoother complexion. Ginger root complex soothes and helps visibly reduce redness. As an added touch, witch hazel works to dissolve and visibly tighten pores.

FACIALS

24K DELUXE GOLD FACIAL (60 MINUTES) \$200

This is a luxurious and relaxing treatment, which includes cleansing, exfoliation, massage and 24K gold Esthemax Truffle mask. Gold is well known for its ability to remove toxins. It helps to repair oxidation damage and helps to improve the appearance of age spot. The 24k Gold Facial assists in lymphatic drainage and by improved blood circulation, whilst helping to enhance skin elasticity.

THE EXPRESS FACIAL (30 MINUTES) \$60

Perfect for those with busy schedules, this facial targets key concerns such as dullness, dryness, and congestion, delivering results with minimal downtime. The treatment includes a quick cleanse, exfoliation, extractions with steam, a mask, and a nourishing moisturizer, leaving your skin feeling refreshed, smooth, and glowing.

LPG MOBILIFT WITH LED & OXYGEN (60 MINUTES) \$220

An LPG Face Treatment with LED Light Therapy and Oxygen Treatment is a powerful, non-invasive facial that combines multiple technologies for ultimate skin rejuvenation. The LPG treatment stimulates collagen production and firms the skin, while LED light targets acne, wrinkles, and skin tone. The Oxygen Treatment infuses the skin with nutrients and hydration. This multi-step approach leaves the skin smooth, revitalized, and youthful.

ZO SKIN HEALTH BRIGHTENING FACIAL (60 MINUTES) \$150

The ZO Skin Health Brightening Facial will include the ZO Foamacleanse, the Exfoliating Polish and the Activator (chemical and mechanical exfoliation), brightening or calming ZO mask, face and neck massage, and finishing the facial with a customized cocktail of ZO brightening serums to rejuvenate your skin

MICRODERMABRASION + FACIAL (45 MINUTES) \$100

A non-invasive, non-surgical procedure that removes dull, lifeless cells on the surface of the skin to reveal newer more radiant skin. Reduces the appearance of fine lines, wrinkles, age spots, acne scars and hyperpigmentation.

VIMI BRIGHTENING DERMAPLANING FACIAL (70 MINUTES) \$200

The Dermaplaning Brightening Facial is a luxurious, exfoliating treatment designed to reveal a fresh, radiant complexion. This facial begins with gentle cleansing, followed by the dermaplaning process, where a skilled esthetician uses a fine, sterile blade to carefully remove dead skin cells and fine vellus hair (peach fuzz) from the skin's surface. This technique leaves the skin incredibly smooth, allowing for deeper penetration of brightening serums and hydrating masks applied afterward.

ZO SKIN HEALTH ACNE FACIAL (45 MINUTES) \$130

ZO Skin Health is amazing for acne-prone skin as it targets the health of the skin cells. The facial includes a gentle cleanse and exfoliation with the ZO Exfoliating Polish and Activator. The dead skin cells should be removed preventing pores to clog as acneic skin is prone to it. The Sulfur ZO mask reduces the redness and the inflammation, and manual extractions are done to clear pores and rid of underlying sebum.

THE VIMI SPA FACIAL (45 MINUTES) \$85

The Vimi Spa Facial is great for a facial experience. It includes thorough cleansing, gentle exfoliation, steam+extractions, massage, mask, and customized finishing creams. European products by Vagheggi, have no fragrances, alcohol or parabens making them extremely gentle for even the most sensitive skin.

\$600 (120 MIN)

Indulge in our luxurious facial treatment, designed to refresh, renew, and restore your skin to its radiant best. This comprehensive service includes:

- **HydraFacial Deluxe Treatment** (incorporating advanced HydraFacial technology for deep cleansing, exfoliation, and hydration)
- **ZO Skin Health Products** to target skin concerns and promote long-term skin health
- **Brightening Mask** to even skin tone and enhance luminosity
- **HydraFacial Booster Vial** for personalized treatment, addressing specific skin needs (such as anti-aging, brightening, or hydration)
- **LED Light Therapy** to stimulate collagen production and reduce inflammation, promoting a glowing complexion
- **Oxygen Treatment** to deeply hydrate and oxygenate the skin, leaving it fresh and revitalized
- **Esthemax Hydrojelly Mask** for soothing, moisturizing, and firming benefits
- **LPG Endermologie Eye, Lip, and Décolleté Treatment** to reduce puffiness, smooth fine lines, and firm delicate skin areas
- **High-Frequency Therapy** to target imperfections and enhance overall skin texture and clarity.

This multi-faceted treatment provides deep rejuvenation for your face, neck, and décolleté, leaving your skin nourished, glowing, and visibly youthful.

PLATINUM FACIAL [TIGHTENING, ANTIAGING, GLOW BOOSTING & HYDRATING FOR FACE, NECK, EYES, LIPS, AND DÉCOLLETÉ]
\$600 (120 MIN)

Experience the ultimate in skin rejuvenation with this multi-step treatment designed to sculpt, tighten, and hydrate. Our expert facial combines the latest in advanced technology with luxurious skincare to deliver visible results.

This all-inclusive facial features:

- **LPG Endermologie Sculpting & Firming Treatment** for the face, eyes, and neck, to lift, tone, and redefine contours with targeted massage and stimulation.
- **Esthemax Hydrojelly Peel-Off Mask** to deeply hydrate, soothe, and nourish the skin, leaving it refreshed and plump.
- **Oxygen Therapy** to infuse the skin with pure oxygen, revitalizing and replenishing for a radiant, youthful glow.
- **Venus RF Tightening** for the neck and décolleté, utilizing radio-frequency energy to tighten and firm the skin, reducing the appearance of fine lines and wrinkles.
- **No-Downtime MesoGold Hydrating Therapy with a 24K Gold Device** to infuse our exclusive UPgrade Serum, boosting collagen production and deeply hydrating for a smooth, glowing complexion.
- **ZO Skin Health Calming Masque** applied to the neck and décolleté post-Venus RF treatment to cool, calm, and restore balance to the skin.
- **LED Light Therapy** to further stimulate collagen, promote skin healing, and enhance overall skin radiance.

This treatment offers comprehensive care for your face, neck, and décolleté, delivering a visibly lifted, smooth, and glowing appearance—without any downtime.

EXPERIENCE A FACIAL LIKE NO OTHER

TEEN FACIALS

VIMI TEEN FACIAL™ (40 MINUTES) \$85

A Teen Facial is a simple, effective treatment designed to address common teen skin issues like acne, oiliness, and dryness. The facial typically includes gentle cleansing, light exfoliation to remove dead skin cells, and pore extractions to clear clogged pores. A soothing mask is applied to hydrate and balance the skin. This treatment is ideal for teens looking for a quick, no-frills solution to improve skin clarity, reduce breakouts, and promote a healthy, glowing complexion. It's perfect for maintaining clear, refreshed skin with minimal downtime.

TEEN HYDRAFACIAL™ (45 MINUTES) \$190

A Teen HydraFacial MD is a gentle, non-invasive treatment designed for teen skin concerns like acne, oily skin, and clogged pores. It begins with cleansing and exfoliation, followed by pore extraction to remove dirt and oil. Hydrating serums, including salicylic acid for acne and hyaluronic acid for moisture, are then applied. LED light therapy may also be used to reduce inflammation and target acne-causing bacteria. Regular treatments (every 4-6 weeks) help improve skin texture, control acne, and maintain hydration. This treatment is ideal for teens seeking clear, healthy skin with minimal downtime and irritation.

VIMI DELUXE TEEN FACIAL (60 MINUTES) \$175

A Deluxe Teen Facial is a customized skincare treatment designed to address teen skin concerns like acne, oiliness, and dryness with a focus on relaxation and indulgence. The facial includes deep cleansing, gentle exfoliation, extractions to clear pores, and a hydrating mask. High-quality, soothing products are used to balance and nourish the skin, while calming techniques promote relaxation. Often, the treatment includes a facial massage and a calming eye treatment. Ideal for teens, this facial helps improve skin texture, prevent breakouts, and leave the skin refreshed, hydrated, and glowing.

99.9% 24K GOLD THERAPY

What is 99.9% 24k Gold Therapy?

99.9% 24K Gold Therapy benefits for all skin types, It helps the skin's elimination of toxins and combats sun damage. This patch also reduces tired appearance and brightens up the skin by circulating blood and oxygen.

Esthemax Gold patch has strong anti-aging properties. It activates the process of cell renewal and rejuvenates the skin. It also brings about a significant reduction of wrinkles and fine lines and ensures that skin elasticity is maintained to makes your skin look youthful. This is good for dry and oily skin both.

Gold therapy reduces the appearance of fine lines and wrinkles. Completely hydrating and aids recovery for the skin. Rich in minerals, it restores skin tone, cleanses and detoxifies. Treatments to hydrate, firm and moisturize the skin, claiming reduced fine lines and wrinkles and resulting in smooth and radiant skin. Keeps skin firm by maintaining collagen in the skin and inhibiting the breakdown of elastin.

99.9% 24k Gold Therapy + 24K Gold Patches Hydrafacial (70 Minutes) \$340

The HydraFacial™ resurfacing procedure thoroughly cares for your skin, providing cleansing exfoliation, extractions, and hydration, including Vortex-Fusion® of antioxidants, peptides, and hyaluronic acid. The HydraFacial™ is a non-invasive, non-surgical procedure that delivers instant results with no discomfort or downtime. The procedure is immediately effective. This HydraFacial™ increases the efficacy of product penetration with the extra steps of exfoliation through chemical and mechanical ZO Exfoliating Polish and Activator. You also get the ultimate glow + calming with the Truffle & 24k Gold Esthemax Youthful Elixir Hydrojelly Mask. This is a luxurious and relaxing treatment, which includes cleansing, exfoliation, massage and 24K gold sheets and Esthemax Truffle and 24K Gold Hydrojelly mask. Gold is well known for its ability to remove toxins. It helps to repair oxidation damage and helps to improve the appearance of age spots by helping to slow the creation of melanin, accelerating cell renewal and decreasing skin inflammation. The 24k Gold Facial assists in lymphatic drainage and by improved blood circulation, whilst helping to enhance skin elasticity. There will also be 24k Gold patches on your skin during the facial + 24k Gold Therapy Cream will be used during your facial as well to enhance results.

esthemax
professional

White In \$250

An exclusive product based on Arbutin and DMCP, the innovative component able to improve cutaneous blemishes such as sun and aging spots determined by hypochromia and discolorations.

Benefits:

- Improves face hyperpigmentation
- Improves melasma
- Improved post-inflammatory hyperpigmentation

Indicated for improving the appearance of:

- Café-au-lait spots
- Freckles
- Melasma/chloasma
- Post-inflammatory hyper pigmentations

UPgrade \$250

A unique revitalizing cosmetic product containing Hyaluronic acid, Glycerol, Peptides, Coenzymes, and vitamins able to improve skin elasticity and tone to confer a visible tightening effect.

Benefits:

- Improves stressed and damaged skin
- Improves skin elasticity
- Hydrates the skin

Indicated for improving the appearance of:

- Thin wrinkles
- Stressed and damaged skin
- Highly dehydrated skin
- Stressed and damaged skin

PQ AGE Evolution \$250

A valuable gel with a unique composition for an immediate result. A formulation specifically studied by Promotalia research to regenerate the skin in a pleasing and non-invasive way. The application is performed through a delicate and pleasant massage that immediately gives amazing results.

Benefits:

- Immediate lifting effect
- No side effects
- Can be used all year round

Recommended for:

- Revitalize the skin of the face, neck, décolleté, inner thighs, arms and breast
- The treatment of sensitive and delicate skin

Fixer \$250

Cosmetic for topic use. The first real alternative to the use of the botulinum toxin, with antioxidant actions, which allows, thanks to the synergic action given by the four active principles found in the formulation, to improve the appearance of wrinkles and to tone skin of the face and body.

Benefits:

- Natural ingredients that help cutaneous distension
- Can be used as an alternative to the botulinum toxin or in combination to have a long-lasting effect

Indicated for improving the appearance of:

- Average- deep wrinkles
- Atonic and asphyxiated skin

Package of 7 (White In, Upgrade, PQ Age Evolution & Fixer with Mesogold device \$1250

Blooméa® Optimal Macro Exfoliation

1. Macro-Exfoliation

At the start of each session, a new tip is unsealed in the presence of the client and then attached to the handpiece.

The single-use tip dispenses with the need for cleaning and above all ensures that the rigorous hygiene requirements for this type of treatment are met. When switched on, the tip starts to oscillate at a high frequency and its granularly exfoliating surface is applied to the skin to remove the imperfections layer by layer and to smooth and tone the skin: this is the process of Macro-exfoliation. The person feels a completely painless friction and vibration. The first sessions therefore prepare the skin to the exponential efficiency of the sessions to come: It is The Blooméa® Optimal Macro exfoliation.

2. Micro-Exfoliation

After this initial phase, the exfoliating surface of the Blooméa® tip is removed to reveal the silicone layer underneath. A few drops of the Blooméa® cream, rich in elastin, collagen and hyaluronic acid are applied to the skin.

Then starts the action of the second Blooméa® innovation: a pleasant high frequency Microvibrations massage which deeply stimulates the skin, while increasing the production of elastin and collagen to tighten and tone the skin. Simply stated: The repetitive strain injuries due to high frequency Microvibrations, ultimately leads to an in-depth strengthening of your skin.

AREAS OF THE BODY TO BE TREATED

Face & Neck

- Acne scars and scars
- Fades sun marks
- Tightens and tones up the skin
- Tightens pores
- Refines skin texture
- Reduces neck lines

Stretch Marks, Body Pigmentation, Keratosis Pilaris

THERMIsmooth[®] face

Reduce the Appearance of Cellulite and Wrinkles with ThermiSmooth[®]

ThermiSmooth[®] Face is a gentle, non-invasive treatment that uses controlled radiofrequency energy to deliver precise heat deep into the dermis – the layer where collagen lives. This heat causes existing collagen fibers to contract while stimulating fibroblasts to produce new collagen over time, restoring the skin's structure, firmness, and elasticity.

The result is noticeably tighter, smoother, and more lifted skin with improved texture and a youthful glow – without any downtime. Most clients enjoy a series of 3–6 sessions spaced 2–4 weeks apart for optimal, long-lasting results

Whether you're looking for a quick refresh before an event or wish to enhance your results between injectable or facial treatments, ThermiSmooth is a perfect addition to your routine. You can return to your normal activities immediately after each session – glowing, tightened, and refreshed.

Face & Neck [1 Session] (45 minutes) \$150

Face & Neck [7 Sessions] (45 minutes) \$1000

Face & Neck [10 Sessions] (45 minutes) \$1400

Smooth Wrinkles

Skin begins to sag and lose its density, creating wrinkles and furrows, mostly on the face, neck, décolleté, and hands. Other external factors, such as sun, stress, tobacco, or even pollution, can accelerate the appearance of wrinkles.

Clarify The Complexion

Stress, pollution, lack of sleep, and tobacco use are also factors that darken skin: venous and lymphatic microcirculation slows, and toxins build up. Skin then loses its radiance and the complexion becomes dull.

Reduce The Double Chin

Double chin is hardly aesthetically pleasing, and it affects both men and women of all ages: it distorts your facial features and make your face heavier. It is generally caused by the accumulation of fatty masses, but can also arise as a side effect of sagging skin, due to reduced synthesis of natural collagen and elastin fibers.

Firm The Skin

The skin loses firmness and tonicity, the nasolabial folds (laugh lines) become deeper, and the eyelids become droopy. The skin gradually distends, leading to a general sagging of the face.

Microneedling & RF Microneedling

Microneedling

Microneedling Eclipse MicroPen® EVO Treatment

Microneedling is a treatment in which a derma-roller, a small roller with many tiny needles, creates a number of microscopic punctures in your skin. The needles spur your dermal skin layer into making fresh collagen. The new collagen develops over the upcoming months and can continue for some time afterward. Collagen can fill wrinkles and firm your skin. Microneedling is often combined with other treatments because the small holes in the skin create a direct route to the skin's dermal layer. Platelet-rich plasma (PRP) and microneedling are a great combination if you want major skin renewal.

Microneedling GF \$350

Microneedling GF [3 Treatments] \$900

Microneedling GF [10 Treatments] \$2800

Microneedling [Body]

Small Area: \$350

Medium Area: \$400

Large Area: \$450

Microneedling PRP - Platelet Rich Plasma

PRP is an anti-aging skin rejuvenation treatment that uses the healing properties in the blood to boost collagen and restore a more youthful look. Volume-boosting results that any other injectable filler achieves, making the skin smoother and reshaping facial contours.

Microneedling PRP (Platelet Rich Plasma) \$500

Microneedling PRP (Platelet Rich Plasma) [3 Treatments] \$1350

Benefits of Microneedling

- Reduces the Appearance of Fine Lines and Wrinkles
- Improves Skin Tone
- Shrinks Pores
- Improves the Efficacy of Skincare Products

IPL Photofacial

IPL Photofacial

IPL stands for "intense pulsed light." During an IPL photofacial, a light-emitting device is precisely calibrated to target specific skin concerns or to deliver comprehensive full-face rejuvenation.

IPL Photofacial Single Treatment: \$300

IPL Photofacial (3 Treatments): \$825

IPL Photofacial (6 Treatments): \$1500

CYNOSURE

Venus Viva™ MD (Microneedling + Radio Frequency)

SKIN RESURFACING THAT IS SAFE FOR ALL SKIN TONES:

Unlike most other skin resurfacing treatments that are not safe for darker skin tones, Venus Viva™ MD skin resurfacing is safe for all ethnicities, even for darker complexions.

LOW TO NO DOWNTIME:

Return to your daily skin care routine 24 hours after skin resurfacing treatments. No downtime at all for wrinkle reduction treatments.

QUICK TREATMENTS:

Sessions last only 15-30 minutes.

Benefits of Venus Skin Resurfacing

- Texture problems
- Wrinkles and fine lines associated with ageing
- Acne scars
- Surgical scars
- Large pores
- Stretch marks
- Hyperpigmentation
- Skin laxity

Venus Viva™ MD (Diamond Polar)

Venus Viva MD Tightening

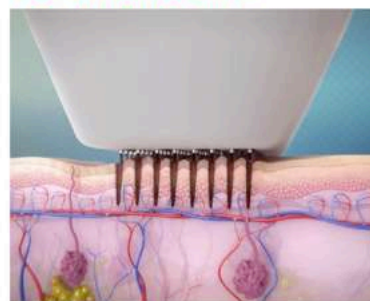

The Viva Diamond Polar is a special Venus Viva device that uses radiofrequency and magnetic pulses to generate uniform heat just under the surface of the skin in order to stimulate your body's own natural production of collagen and elastin. The production of collagen and elastin firm up and tighten the skin, giving you a smoother, tighter, and naturally youthful look.

Acne Treatments

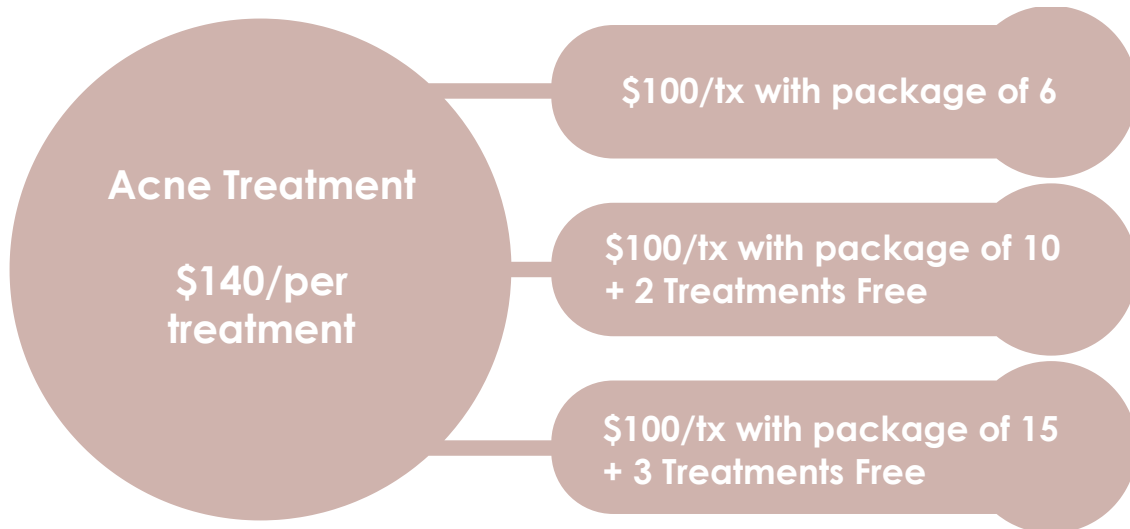

vimi
laser & skincare clinic

for Acne

PrimeLase Excellence Acne Treatment

Laser technology is an excellent method for treating active acne thanks to its bacteriostatic effect and also because it is a non-invasive, effective, non-ablative and safe technique. The temperature of the skin is increased uniformly which has a bacteriostatic effect on the bacteria that cause pustules, prevents them from reproducing, thereby decreasing the formation of fresh acne. The blend hand piece which is (810nm + 940nm + 1060nm) is one of the best choices for treating acne. The mode of action is selective photothermolysis, meaning that the laser energy is concentrated in the main chromophore, in the case the melanin of the hair, which has the highest degree of optical wavelength absorption in the dermis.

Metrics & Testing

Visia Skin Analysis

Visia Skin Analysis

The **VISIA Skin Analysis** is an incredible platform to take a deep dive into your skin. VISIA will scan and take photos of your skin using technologies such as cross-polarized and UV lighting to reveal what the naked eye can't see – for example, hyperpigmentation in deep layers of your skin that haven't risen to the surface just yet. VISIA will also measure your pore size, porphyrins (acne bacteria), UV spots, sun damage, texture and wrinkles. And the fun part: it tells your true skin age! With the consult, you will receive a customized skin plan to address your concerns.

Visia Skin Analysis \$75

InBody Analysis

InBody

The InBody 570 is a body composition analyzer that uses only impedance to determine **body composition results**; no statistical data or empirical equations are used or required to predict body composition. It measures fat, muscle, and water levels in less than a minute. No dunking.

How is an InBody test performed?

Safe, low-level currents are sent through the body through the hand and foot electrodes. The impedance the currents encounter is measured, and from there, your body composition is derived. With **InBody's patented technology**, BIA has never been more highly correlated with gold standard methods until now.

InBody Analysis (1 Analysis) \$15

InBody Analysis (1 Year Unlimited) \$200

Each InBody test will print out a full-page results sheet detailing the muscle, fat, and water values of the user, including lean mass and fat values in each segment of the body.

Body
Treatments

Lipomassage[™]
BY ENDERMOLOGIE[™]

Full Body Endermologie

Releases localized fat, reactivates circulatory exchanges and firms to recover smoother and firmer skin as well as a lighter body.

This treatment is suitable for all types of cellulite (adipose, aqueous and fibrous).

- Body [1 session] (40 minutes) \$150**
- Body [7 Sessions] (40 minutes) \$875**
- Body [11 Sessions] (40 minutes) \$1250**
- Body [22 Sessions] (40 minutes) \$2450**

- Body [1 session] (60 minutes) \$175**
- Body [7 Sessions] (60 minutes) \$1050**
- Body [11 Sessions] (60 minutes) \$1750**
- Body [22 Sessions] (60 minutes) \$3200**

Young Mum Treatment (30 minutes)

During 30 min, this protocol targets "critical" areas (stomach, waist, buttocks, thighs) to recover a harmonious silhouette while providing a real feeling of well-being.

- Body [1 session] (30 minutes) \$125**
- Body [7 Sessions] (30 minutes) \$700**
- Body [11 Sessions] (30 minutes) \$1000**

Endermopuncture (50 minutes)

An exceptional treatment that simultaneously stimulates adipocytes (slimming cells), fibroblasts (rejuvenating cells), and their environment for maximum effectiveness. Slim your body, and smooth away the appearance of cellulite.

- Body [1 session] (50 minutes) \$170**
- Body [7 Sessions] (50 minutes) \$1120**
- Body [11 Sessions] (50 minutes) \$1700**

Release Fat

With the new patented Alliance treatment head, endermologie® makes it possible to target and slim specific areas resistant to diet and exercise (arms, back, stomach, waist, thighs, etc.) while precisely adapting to the needs of each type of skin.

Firm the Skin

Due to weight fluctuations, pregnancies, passing time, and other factors, the skin gradually loses its tonicity and suppleness. Even though this skin sagging affects the entire body, certain areas are more susceptible to it: inner thighs, stomach, arms, etc.

Lighten Legs

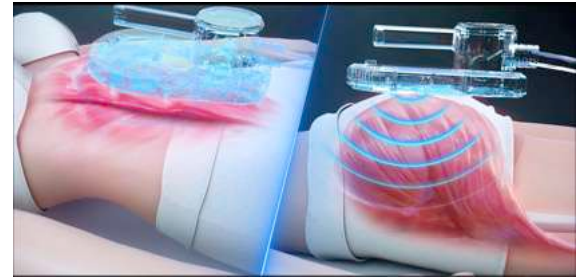

Symptoms such as heavy and painful legs or swollen feet and ankles are the result of poor blood and lymphatic circulation. Toxins build up in the organism, which explains such volume fluctuations over the course of a single day or throughout a woman's cycle.

Smooth Cellulite

Cellulite, which affects 90% of women (even the thinnest and most athletic), is the result of both fat storage in adipocytes (fat cells) and of water retention in the body.

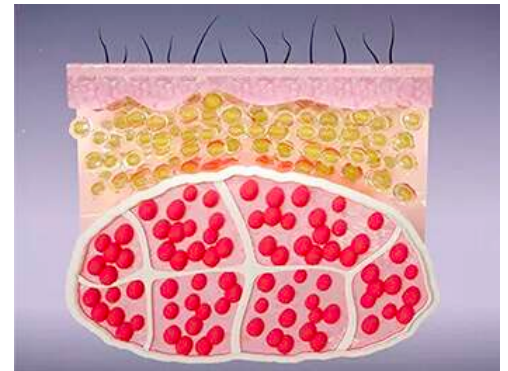

What is Sculptique?

The Sculptique is a non-invasive body sculpting machine, performing treatments using EMS technology to stimulate the body's muscles. The Sculptique stimulates high-frequency muscle contractions, promoting fast muscle growth. These fast contractions force your muscles to adapt to intense exercise, allowing them to grow and become more toned.

How does it work?

Sculptique with HI-EMS (High-Intensity Electromagnetic Stimulation) technology induces supramaximal muscle contractions not achievable by voluntary action. When exposed to supramaximal contractions, the muscle tissue is forced to adapt to such extreme condition.

The muscle responds with a deep remodeling of its inner structure, which is the growth of myofibrils (muscle hypertrophy) and creation of new protein strands and muscle fibers (muscle hyperplasia). This process results in increased muscle density and volume.

depending on your personal goals.

During the treatment you may feel intense muscle contractions in the treated area. The procedure does not require any recovery time and daily activities can resume immediately after treatment.

Areas that can be treated

- Biceps
- Abdomen
- Inner Thighs
- Triceps
- Buttocks
- Outer Thighs
- Calves

THERMIsmooth[®] body

Reduce the Appearance of Cellulite and Wrinkles with ThermiSmooth[®]

ThermiSmooth[®] Body is a non-invasive radiofrequency treatment designed to tighten loose skin, improve texture, and enhance body contours without surgery or downtime. By delivering controlled heat deep into the dermis, the treatment causes existing collagen fibers to contract and stimulates fibroblasts to produce new collagen – restoring firmness, elasticity, and smoothness to areas prone to sagging or crepiness.

It's ideal for treating stubborn areas like the abdomen, thighs, arms, knees, or above the knees, where skin laxity often occurs with age or after weight loss. Most clients see visible improvements after a series of 3–6 sessions, with continued collagen production over time.

Perfect as a standalone treatment or to enhance results between body contouring procedures, ThermiSmooth[®] Body leaves skin noticeably tighter, smoother, and more toned – with zero downtime, so you can return to your day immediately after treatment.

Body [1 session] (45 minutes) \$300

Body [6 Sessions] (45 minutes) \$1680

Body [11 Sessions] (45 minutes) \$2500

Chocolate Body Exfoliation

by Sarah

Chocolate Body Exfoliation \$130

Chocolate Body Exfoliation is a wonderful way to relax and relieve tension in the body and the mind at the best of times, but the Chocolate Body Scrub Massage is a real cocoa-filled treat for both muscles and skin. This wholesome massage is perfect for de-stressing, and for leaving the skin feeling firmer and re-nourished.

The Chocolate Body Exfoliation is a full treatment of goodness beginning with the application of a chocolate body scrub that exfoliates the skin by removing dead skin cells and opening up the pores. A second chocolate cream is then applied and massaged into the skin with gentle, clean movements. Being loaded with antioxidants and magnesium – an essential mineral in muscle health – the cocoa interacts with the skin, softening its surface as the muscles are being massaged and oxygenation is stimulated.

Benefits of Chocolate Body Exfoliation

This wholesome treatment, which revitalizes both skin and muscles, shows immediate and long-term results. Alongside ridding the skin of dead skin cells and soothing and hydrating the body.

Other benefits of the Chocolate Body Scrub Massage include:

- Protecting skin from long and short term damage
- Reduces recurring cramps, including menstrual cramps
- Energizes both body and mind

Ideal Protein

Ideal Protein (Lose up to 15lbs in 1 month)

The three phases of the Ideal Protein Protocol are designed to help you set, achieve and maintain your weight loss goals. During the Weight Loss Phase of the Protocol, we limit carbohydrate intake to encourage the body to turn to its fat stores for energy. By eating Ideal Protein foods, the Protocol helps to sustain muscle mass while teaching you how to develop smarter eating habits and lifestyle choices, to help maintain your weight after weight loss is achieved.

How is Ideal Protein different from other diets on the market?

The Ideal Protein Weight Loss Protocol addresses weight issues at their source; reducing carbohydrates and fats while ensuring adequate daily protein intake. In other words, the goal is to lose fat, not muscle. While on the Protocol, through personalized coaching, you're also provided with healthier lifestyle education so that you are empowered to sustain your weight loss results over your life course.

Nutrafol

Nutrafol daily hair growth supplement is made for women experiencing compromised hair health. Physician-formulated with medical-grade, natural ingredients that target the root causes of thinning such as stress, lifestyle and nutrition, our award-winning formula results in faster-growing, thicker, fuller, stronger hair. And it's an effortless addition to your daily wellness routine: 4 pills, 1 easy step, all the results

Nutrafol (3 Month Supply) \$360

PRP for Hair [PRP Single Treatment: \$500] [PRP (Package of 3): \$1350]

PRP or Platelet Rich Plasma hair restoration procedure is considered as a great break through in hair growth therapy. There are large number of successful cases out there such as film stars, actors, spokespersons and businessmen, who have achieved very effective results.

The treatment involves drawing the patient's blood and spinning it in a centrifuge to separate the plasma from the red and white cells. The platelets and growth factors are collected from the sample and injected into the scalp where the hair is thinning. Injection of blood plasma rich in platelets will stimulate hair follicles and make hair grow, even in genetic bald spots. It decreases the hair fall, improves the quality of hair and causes thickening of fine miniaturized hair.

Revivogen MD

Eliminate scalp itchiness & irritation. Reduce hair fall to improve naturally fine or thinning hair. Correct a receding hairline or overall thinning by blocking follicle killing DHT. Rejuvenate hair and scalp health with natural DHT inhibitors and hair growth stimulators. Support hair's body and shine with gentle bio-cleansing shampoo and thickening conditioner.

Thickening Conditioner

Bio-Cleansing Shampoo

Revive 7 Science

Revive7 Revitalizing Lash & Brow

The product that started it all! Revive7 grade-a Lash Serum offers significant results without harmful ingredients. It improves lash and brow health, thickness and fullness within 7-21 days of daily use and is made with 7 active ingredients.

Revive7 Hair Revitalizing Spray

Revive7 handcrafted hair oil for hydrating, revitalizing, and nourishing your hair and scalp. Made with Ginseng Extract; which strengthens the follicles and roots of the hair, encouraging new hair and preventing thinning and breakage. Infused with Biotin and Vitamin B6 to nourish your follicles while producing longer, fuller hair. Revive7 Hair is very gentle yet provides amazing results.

Revive7 Oil

Revive7 handcrafted hair oil for hydrating, revitalizing, and nourishing your hair and scalp. Made with Ginseng Extract it strengthens the follicles and roots of the hair, encouraging new hair and preventing thinning and breakage. Infused with Biotin and Vitamin B6 to nourish your follicles while producing the appearance of longer, fuller hair.

The background features several artistic elements: a large orange watercolor wash in the top left; a cluster of small brown dots in the top center; a brown line-art flower in the top right; a large, irregular blue and purple watercolor wash in the center; a blue line-art flower in the bottom left; a brown brushstroke in the bottom center; and a large light blue watercolor wash in the bottom right.

Peels

The Perfect Derma™ Peel \$450 (with booster)

Benefits

Our Perfect Derma Peel in Bellevue uses Glutathione (a powerful antioxidant exclusive to this peel) along with TCA, salicylic acid, kojic acid and vitamin C for brightening and anti-aging results. It triggers restorative peeling which lasts about 7 days. You'll see brighter skin tone and more even complexion after 1 treatment, while 2-3 treatments spaced 4+ weeks apart will resolve deeper skin concerns.

- Reduces hyperpigmentation
- Controls acne scars
- Boosts collagen + elastin
- Softens fine lines and wrinkles
- Corrects sun damage
- Improves tone/texture

MEDICAL GRADE FORMULATION

Powerful ingredients include TCA, Kojic Acid, Retinoic Acid, Salicylic Acid, Phenol, Vitamin C and anti oxidant Glutathione.

SOLVE COMMON SKIN CONCERNS

Sun Spots? Acne scars? Dull or aging complexion? The Perfect Derma Peel delivers real results for All Skin Types and Ethnicities.

Results in 1 week

BROWS

Microblading

Microblading \$550 (Including touchup)

Having thin, uneven, or patchy eyebrows, can be challenging. Spending countless hours in front the mirror, feeling insecure, trying to fix them will make your head spin. Going out at night and worrying if they got smudged or out of place can make you feel hesitant and unsure.

That's why getting microblading at Vimi can be a life changing moment - it can put an end to this vicious cycle and liberate you from the chains of imperfect brows!

Consultation \$100 (Waived)

BROW DADDY

Combo Brows

Combo Brows \$550 (Including touchup)

Tired of trying to be a world-class makeup artist in front of the mirror ?

Why not let a real world-class makeup artist and her team create a perfect fusion of Microblading and Powder Brows for you. You'll have the best of both worlds - natural looking brows with a touch of makeup. This way you can concentrate on what you're good at - looking beautiful!

BROW DADDY

Ombre/3D/Powder Brow

Ombre/3D/Powder Brows \$550 (Including touchup)

Tired of drawing on your eyebrows to get that soft powder effect just right but end up with mediocre results ? Go to work and still feel insecure because you're worried they will get smudged or out of place when you least expect it?

BROW DADDY

Lip Blush

Lip Blush \$550 (Including touchup)

Enhance the beauty of the natural lip color, improving the shape of the lips, giving definition and the illusion of fullness semi-permanently! This treatment delivers very natural results, once healed. Filler is great for creating volume in your lips, but lip blush delivers a more natural look and give the illusion of fuller lips.

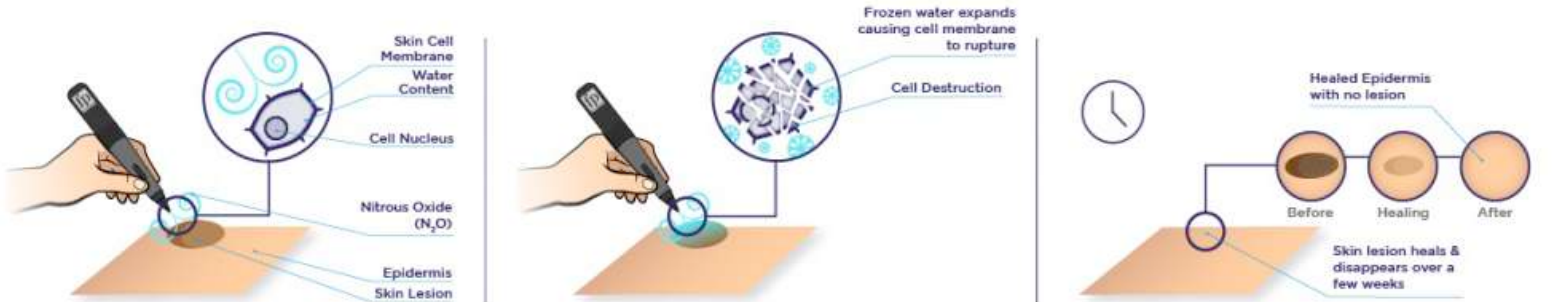

BROW DADDY

Cryotherapy & Electrocoagulation

Erase benign skin lesions and blemishes safely, precisely and comfortably, with cryotherapy.

How it works

1. Freezpen emits high-pressure N₂O gas (-89 °C) that rapidly and precisely freezes the affected area, without damaging surrounding healthy tissue

2. Water in the lesion cells freezes rapidly, expands, and ruptures the cell membrane.

3. As a result of the treatment, the lesion is destroyed and gradually eliminated from the surface of the skin, until healing is completed within a couple of weeks.

What is Cryotherapy?

Cryotherapy is the gold standard for the removal of skin lesions in dermatology and aesthetic practices. It is the controlled destruction of unwanted skin growth through the application of extreme cold. Today, Freezpen & CryoProbe XP provide the most precise and efficient cryotherapy treatment, effectively eliminating unwanted blemishes with minimal discomfort or risk of side effects

Benefits

Versatile: Treat any benign lesion on any part of the body

Results: For most lesions, patients will only need one treatment.

Quick: Patients can be in & out in just 10 minutes.

Comfortable treatment: No need for local anaesthesia.

No downtime: Patients can go back to daily activities immediately after the treatment.

No surgical procedure: No cuts, no bleeding, no excision, and no sutures.

Sterile: No risk of infection.

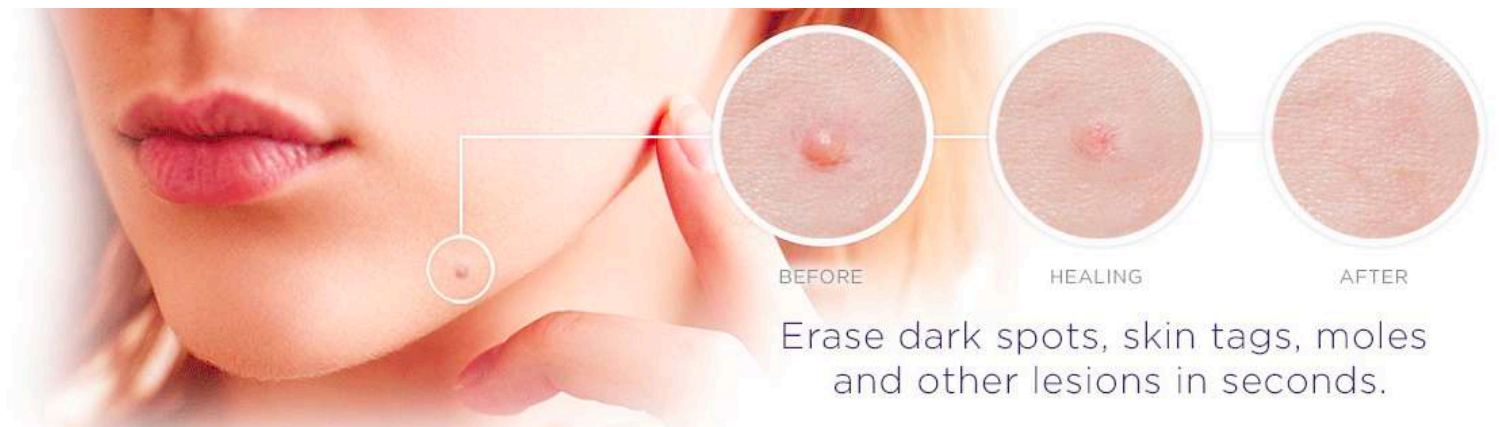

Precise and safe: Controlled pressure allows targeting the lesion with minimal impact on the surrounding healthy skin

Easy: No special post-care necessary.
